PROFESSIONAL SUMMARY

HNDIT undergraduate and Software Engineering Intern at NAITA with practical experience in developing full-stack web applications using React and Django. Experienced in building real-world systems, integrating frontend and backend components, and collaborating in team-based development environments. Seeking a Junior Software Engineer / Full-Stack Developer role in a software company to contribute to scalable, high-quality applications.

EXPERIENCE

Full Stack Software Engineer Intern,

National Apprentice and Industrial Training Authority (NAITA) – Digital Strategic & Systems Division

- Contributed to the development and maintenance of **internal software systems** used within the organization.
- Developed **responsive and reusable frontend UI components** using **React**, **TypeScript**, and **Tailwind CSS**, ensuring consistent design and performance across devices.
- Implemented **backend logic** using **Django**, including models, views, and database operations.
- Designed and managed **RESTful APIs** to support efficient **CRUD functionalities** between frontend and backend systems.
- Worked with **SQLite** for database management during development and testing phases.
- Collaborated with team members using **Git** and **GitHub** for version control, code reviews, and collaborative development.
- Participated in **testing, debugging, and optimization** to improve system stability and user experience.

Technologies: React, TypeScript, JavaScript, Tailwind CSS, Django, Python, SQLite, Git, GitHub

EDUCATION

Present	Higher National Diploma in Information Technology (HNDIT) Sri Lanka Institute of Advanced Technological Education (SLIATE) Following
2021	Advance Level MR/Denipitiya M.M.V.
2018	Ordinary Level MR/Warakapitiya M.V.

TECHNICAL SKILLS

Frontend

React | TypeScript | JavaScript | HTML | CSS |
Tailwindcss

Programming Language

Python | Java | C# | JavaScript | Dart | SQL

Concepts

REST APIs, MVC Architecture, CRUD Operations,
Basic Agile Exposure

Backend and Database

Django | Firebase | MySQL | SQL Server | SQLite |
PostgreSQL | Supabase

Tools & Workflow

Git | GitHub | VS Code | Figma | Canva

LANGUAGES

Sinhala

Fluent

English

Intermediate

Tamil

Basic

SOFT SKILLS

- Problem Solving
- Team Collaboration
- Time Management
- Continuous Learning
- Time Management

PROJECTS

AETI Website - Full-Stack [🔗](#)

- Developed a full-stack web application with a responsive frontend, backend APIs, and relational database integration.
- Implemented role-based authentication, dynamic content management features, and optimized overall system performance.

IETI Website - Full-Stack [🔗](#)

- Developed full-stack web application with responsive frontend, backend APIs, and relational database integration.
- Implemented role-based authentication, dynamic content management, and optimized system performance

Service Desk System - Full-Stack [🔗](#)

- Developed backend with RESTful APIs and database integration, plus selected frontend components.
- Delivered end-to-end modules ensuring reliable performance, error handling, and smooth data flow.

Institute of Nursing & Healthcare Training – Frontend Website

- Developed a **responsive frontend website** to present academic programs, admissions information, and institutional content with a clean, user-friendly interface.
- Implemented **reusable UI components** and ensured cross-device compatibility to enhance performance and user experience.

Technologies: React, TypeScript, Tailwind CSS, JavaScript

Smart Tuition Manager

Individual Project

- Developed a tuition management system to manage students, classes, and payments Implemented backend using Django with database models and admin panel Focused on clean architecture and scalability Tech: Django, Python, HTML, CSS, SQLite

Food Ordering Web Application

Individual Project

- Designed and developed a full-stack food ordering system Implemented backend using PHP and MySQL Applied validation and basic authentication Tech: HTML, CSS, JavaScript, PHP, MySQL

Education Management System

Individual Project

- Built a full-stack education management platform Developed dynamic frontend using React Integrated backend services for CRUD operations Tech: React, JavaScript, Django
